Postdating of Merchant Mariner Credentials

The recently published rule titled "Implementation of the Amendments to the International Convention on Standards of Training, Certification, and Watchkeeping for Seafarers (STCW), 1978, and Changes to National Endorsements" (78 FR 77796) authorizes the Coast Guard to postdate a Merchant Mariner Credential (MMC) up to 8 months. This rule becomes effective on March 24, 2014. The implementation plan for postdating MMCs and the impact on the current delayed issuance process are listed below.

Postdating:

- Postdating of an MMC is defined as placing an issue date on the MMC that is in the future.
- Postdating of MMCs will only apply to applications for renewal of a credential where no other credential activity is requested or results from the transaction.
- Except upon receipt of written request documenting the need for immediate issuance, the National Maritime Center (NMC) will automatically postdate credentials with the appropriate future date.
- The issue date of the MMC will be the day following the date of expiration of the current MMC, but no more than 8 months in the future. The expiration date and period of validity of the credential will be 5 years from the date of issuance.
- If the expiration date of the mariner's current credential is beyond 8 months from the date that the Coast Guard accepts a complete application, the new credential issue date will be 8 months from the date of application acceptance, at which time the current active credential will become invalid.
- Any transactions initiated after a postdated MMC has been approved and mailed will result in endorsement labels being printed and mailed for both the mariner's active MMC and the postdated MMC. Mariners must ensure that the endorsement labels are properly placed in the appropriate MMC.
- To ensure consistency of service, the Coast Guard will implement postdating of renewal credentials beginning with applications processed on or after **March 24, 2014**.
- The new credential will not be valid until the issue date listed on the new MMC. Mariners must continue to carry their current credential until that date.
- In accordance with the Code of Federal Regulations (CFR), mariners are required to return expired or otherwise invalid credentials to the NMC. When the current credential expires, it should be mailed to the NMC.
- It is the responsibility of the mariner to maintain control of the postdated credential. If a credential is lost, mariners must follow the procedures to apply for a duplicate, found in 46 CFR Part 10.231.

Delayed Issuance:

- The Coast Guard will no longer accept requests for delayed issuance beginning March 24, 2014.
- Those applications that have been approved for production with delayed issuance on or before March 23, 2014, will be processed using the current delayed issuance procedures.

Mariners and other providers should contact the Customer Service Center at IASKNMC@uscg.mil or 1-888-IASKNMC (427-5662) with any questions or feedback.

Sincerely,

/J. P. Novotny/
Captain, U. S. Coast Guard

- A quick reference table for the requirements of an MMC and any endorsement is available online at: [46 CFR 10.239](http://46CFR10.239)
- More information is available on the National Maritime Center (NMC) website: www.uscg.mil/nmc

MMC and Endorsement Application Descriptions:

All Mariners will receive a single Merchant Mariner Credential. Describe all desired capacities and limitations both national and STCW including tonnage, waters, propulsion mode, horsepower, ratings (*Ordinary Seaman, Able Seaman, QMED-Oiler, etc.*), purser, doctor, radio operator, continuity, etc.

1. **Original MMC** - An applicant must apply for an original MMC if they have never held any Coast Guard issued credential or if the first credential issued to applicant after their previous credential was revoked pursuant to 46 CFR Part 10. Complete the application and ensure all mandatory documents are contained with application.
2. **Renewal MMC** - A credential may be renewed at any time during its validity and for one year after expiration; you must be qualified to renew all Domestic/STCW Officer and Rating endorsements to receive an MMC with a new five year expiration date. An MMC renewal-only transaction will automatically be issued with a date that coincides with the expiration date of your previous credential or a date that is 8-months from the time the Coast Guard accepted your application, whichever is sooner. Page 3, Section II of this form provides you the opportunity to decline this post-dating feature and your MMC will be valid immediately.

3. **Duplicate MMC** - In the event of a lost credential, a statement describing the circumstances of the loss must be submitted with the application. The duplicate will have the same authority, wording and expiration date as the lost credential. If a person loses a credential by shipwreck or other casualty that causes damage to a ship, a duplicate will be issued free of charge as per 46 CFR 10.229. If a person loses a credential by other means and applies for a duplicate, the appropriate fee set out in 46 CFR 10.219 must be paid. No application from an alien for a duplicate credential will be accepted unless the alien complies with the requirements of 46 CFR 10.229.
4. **MMC Endorsement(s)** - This is a statement on a mariner's MMC that indicates that he or she is qualified to serve in that capacity. All endorsements including National officer and National rating endorsements as well as all STCW endorsements (International) are listed in [46 CFR 10.109](#).
NOTE: Requests for an endorsement(s) will not change the expiration date of a mariner's MMC unless the applicant also requests a renewal MMC and meets the renewal requirements of all endorsements on the MMC in accordance with 46 CFR 10.227.
 - (a) **Raise of Grade (ROG) Endorsement** - The requirements for a ROG are found in 46 CFR 10.231. This is an increase in the level of authority and responsibility associated with an existing officer or rating endorsement.
 - (b) **Increase in Scope** - The requirements for an Increase in Scope are found in 46 CFR 10.223. This is a modification or a removal of limitations or scope to existing MMC endorsement(s).
5. **Document of Continuity** - This is a record of qualifications previously held and does not authorize the holder to sail in any capacity listed thereon. Documents of continuity do not expire, do not require medical or security evaluations, and do not require fees. STCW endorsements may not be placed in continuity. No credential expired beyond the 12-month administrative grace period described in 46 CFR 10.227(h) can be converted into a Document of Continuity.
6. **Entry Level Ratings** - There are no professional requirements needed when applying for entry level credential. Ratings may include Ordinary Seaman, Wiper, and/or Stewards Department / Stewards Department (*Food Handler - F.H.*). Section III: Safety and Suitability

- Unless specifically exempted, the Coast Guard must have evidence that you hold a valid TWIC or, for original applicants, that you have applied for a TWIC and are awaiting the results.

III. 2a-f Criminal Record Review (Convictions and Drug Use):

At the time of application you must provide a written disclosure of all prior convictions NOT previously disclosed.

- **Original Applicants are required to list ALL convictions.**
- **Written Disclosures** - Applicants may use the optional form (CG-719C) to provide written disclosure of all convictions.
- **Conviction means** that the applicant for a merchant mariner credential has been found guilty, by judgment or plea by a court of record of the United States, the District of Columbia, any State, territory, or possession of the United States, a foreign country, or a military court, of a criminal felony or misdemeanor or of an offense described in section 205 of the National Driver Register Act of 1982, as amended (49 U.S.C. 30304). If an applicant pleads guilty or no contest, is granted deferred adjudication, or is required by the court to attend classes, make contributions of time or money, receive treatment, submit to any manner of probation or supervision, or forgo appeal of a trial court's conviction, then the Coast Guard will consider the applicant to have received a conviction. A later expungement of the conviction will not negate a conviction unless the Coast Guard is satisfied that the expungement is based upon a showing that the court's earlier conviction was in error.

III.3 National Driver Registry (NDR):

- No MMC will be issued as an original or reissued with a new expiration date, and no new officer endorsement will be issued if the applicant fails the criminal record review in accordance with 46 CFR 10.213.

The Coast Guard is allowing mariners without a valid TWIC who operate on-board vessels that do not have a VSP to acquire and renew an MMC. The applicant must have held or applied and been qualified to hold a TWIC from the Transportation Security Administration (TSA). This policy will apply to mariners who are inactive or not operating under the authority of their credential, as well as those who serve on vessels that are not required to have a VSP. (See "Denial of Need" form enclosed.)

- Vessels include:
- Uninspected passenger vessels of less than 100 gross register tons (GRT)
 - Vessels inspected under subchapter T of Title 46 Code of Federal Regulations, except those on international voyages
 - towing vessels not involved in towing barges inspected under 46 CFR subchapters D, I, or O.
 - Towing vessels involved in fleetings, docking or ship assist as excepted in Title 33 CFR, Section 104.105(a)(11).
- NOTE:** *This list is not all inclusive.*

Mariners on such vessels will be permitted to renew an existing credential without submitting proof of holding a valid TWIC.

- Vessels that are required to have a VSP include:
- Mobile Offshore Drilling Unit (MODU)
 - Cargo or passenger vessel subject to the International Convention of Safety of Life at Sea, 1974 (SOLAS) Chapter XI-1 or Chapter XI-2
 - Towing vessels greater than eight meters in registered length engaged in towing barges
 - Passenger vessels certified to carry more than 150 passengers.
- NOTE:** *This list is not all inclusive.*

Mariners who are being issued an initial MMC, or who never held a TWIC, will need to enroll for a TWIC at a TWIC enrollment center. They will also have to pay all applicable fees associated with getting a TWIC. This is required because the TWIC enrollment center is the only place where the Coast Guard can obtain biometric information (fingerprints) from the applicant. The Transportation Security Administration (TSA) will also continue to conduct all screenings. Mariners associated with vessels not required to have a VSP will not be required to return to the TWIC enrollment center to pick up their TWIC as a precondition for receiving their initial MMC.

For mariners renewing their MMC, who do not require a TWIC, they may skip the TWIC enrollment process and apply for an MMC at a Regional Exam Center (REC). If a mariner chooses to do this, only criminal background data from previous applications will be available.

The Safety and Suitability "background check" conducted by the NMC will be name based. If the mariner chooses this option, they will need to affirmatively indicate that they do not desire a TWIC and that they understand that they do not desire a TWIC and that they understand that name based processing could significantly delay their credential processing. A sample statement for this may be found at

http://www.uscg.mil/nmc/twic/sample_b.pdf.

With regard to inspection enforcement, the Coast Guard will change its enforcement policies so that a mariner who does not hold a TWIC, or holds an expired TWIC but a current MMC, will not be considered in violation of the applicable regulations.

The Coast Guard is considering a regulatory project that would propose to adjust a portion of the MMC fees to compensate mariners for costs associated with enrolling for a TWIC. This regulation is still in development, but the Coast Guard intends to compete the rule in accordance with the timeline set forth in the Unified Agenda of Regulatory and Deregulatory Action (<http://www.reginfo.gov/public/do/eAgendaMain>). The Coast Guard welcomes feedback on this process, and intends to seek and respond to public comments on the regulation. Until such a regulation becomes effective, the existing MMC and TWIC fee structures remain in place.

ACTIVE CONDITIONS

The USCG is very strict when it comes to information contained on the applicant's physical exam paperwork.

In order to shed some light on this situation, we call your attention to the Coast Guard document NVIC 04-08 which is a policy explanation of their regulations regarding physical exams required for license and document issuance.

On page 1 of enclosure (3), item 1 of the "Medical and Physical Evaluation Guidelines..." of the document says: "Active Condition. If not specified as "history of" in this table, a condition must be currently active to be subject to further review. For purposes of this enclosure, "active" means that the applicant is currently under treatment for the condition, or that the applicant is currently under observation for possible worsening or recurrence of the condition, or that the condition is currently present."

In other words, don't allow the physical to be an exercise in your irrelevant personal history. It is a current physical!

There are a few key words that, when used, will trigger a response from the USCG asking for more information from the applicant and his or her medical care provider. Those key words include, but are not limited to: Sleep Apnea, Anxiety, ADD/ADHD, Bipolar Disorder, Depression, COPD, and the use of addictive and/or mood altering medications.

If the **Medical Practitioner** doubts the applicant's ability to meet the guidelines contained within this table, and for all applicants with a Body Mass Index (BMI) of 40 or higher, the **practitioner** should require that the applicant demonstrate the ability to meet the guidelines contained within this table. This does not mean, for example, that the applicant must actually don an exposure suit, pull an uncharged 1.5 inch diameter 50' fire hose with nozzle to full extension, or lift a charged 1.5 inch diameter fire hose to firefighting position. Rather, the **Medical Practitioner** may utilize alternative measures to satisfy themselves that the applicant possesses the ability to meet the guidelines in the third column. The Coast Guard recognizes that not all medical practitioners will have the equipment necessary to test all of the tasks as listed. Equivalent alternate testing methodologies may be used. Applicant has the physical strength, agility, and flexibility to perform all of the items listed in the physical ability table.

Applicant does **NOT** have the physical strength, agility, and flexibility to perform all of the items listed in the physical ability table.

SIMPLIFIED DRUG TESTING PROCEDURES

A drug test from an approved lab, certified as negative by a licensed physician, is now required for any license or document transaction with the Coast Guard if that transaction requires a physical. Sounds simple! It is if you follow the step by step procedures:

1. Contact a licensed physician (MD or DO only) and ask if he or she can arrange for a drug test approved by the Department of Transportation (DOT). The test must be by a lab authorized by Substance Abuse and Mental Health Services Administration (SAMHSA).
2. Verify that the physician has been trained and certified by the appropriate federal agency in drug testing procedures. A new Federal Regulation requires that physicians receive special training before they can act as Medical Review Officers (MROs). Physician must identify the qualifying organization and registration number in the lower right corner of the Periodic Drug Testing Form.
3. If yes to both 1 and 2 above, ask costs. If satisfactory, go have it done.
4. Make sure that the lab name AND location is on the list provided. If it is not, it is unacceptable. The test can only be for the 7 listed drugs (regulations changed from 5 to 7 during 2010). No more, no less! ONLY the 7 drugs listed can be tested for. The official USCG form still only shows 5, but all approved labs test for the 7 as required.
5. Collection personnel send the urine sample (urine, not blood) to one of the approved labs at one of their approved locations.

This test must be done "Blind." That means the lab only has a control number and physician information to return the results to. Labs cannot have your name or address. That's why you need to find a physician or collection organization that knows what to do. Approved drug consortiums are an ideal source to use. **You can't go directly to one of the labs on the approved list.**

6. Lab runs the test and returns the results to the doctor.
7. Doctor matches up the lab results with your information and fills out the proper form **completely**.
8. Doctor sends the form to **you**, not to the USCG. Photocopies are acceptable to the USCG.
9. You submit the form to the Coast Guard with the rest of your paperwork. Do not send the lab report to the Coast Guard. Drug tests must be less than 6 months old, physicals less than one year old.

or
2. Evidence of being subject to a **Maritime** random testing program for at least 60 of the previous 185 days, and did not fail, and did not refuse to test.

NOTE: If employed in the maritime field, mariners need to be subject to random testing. This can be a company sponsored plan or outside consortium (a group of individuals banding together, sponsored by an organization).
